Contents Vol. 31

Vol. 31, No. 1

Air gasification of peat, wood and brown coal in a pressurized fluidized-bed reactor. I. Carbon conversion, gas yields and tar formation
E. Kurkela and P. Ståhlberg (Espoo, Finland) 1

Air gasification of peat, wood and brown coal in a pressurized fluidized-bed reactor. II. Formation of nitrogen compounds
E. Kurkela and P. Ståhlberg (Espoo, Finland) 23

Motor fuels production from brown coal hydrogenation liquids
A.A. Krichko and A.S. Maloletnev (Moscow, Russia) 33

Deactivation of a coal liquefaction catalyst: Characterization by measurements of catalytic activity and catalyst physical properties
F. Díez (Newark, DE, USA), D.J. Sajkowski (Naperville, IL, USA) and B.C. Gates (Newark, DE, USA) 43

Liquefaction of Turkish lignites and asphaltites with a Turkish vacuum residual oil
E. Bolat, Ç. Kavlak, G. Yalın and S. Dinçer (Istanbul, Turkey) 55

A study on the intrinsic kinetics of steam gasification of Jincheng coal char
Ma Zhi-hua, Zhang Cheng-fang, Zhu Zi-bin and Sun Er-li (Shanghai, P.R. China) 69

Erratum 77

Vol. 31, No. 2

Kinetic study of supercritical extraction of oil shales
H.Q. Hu and S. Guo (Dalian, People's Republic of China) 79

Electron spin resonance study of the thermal decomposition of solvent extracted Athabasca tar sand bitumen
K.C. Khulbe, R.S. Mann, G. Lamarche and A.-M. Lamarche (Ottawa, Ont., Canada) 91

The effect of electric field pulsation frequency on breaking water-in-oil emulsions
J. Drelich, G. Bryll, J. Kapczynski, J. Hupka (Gdansk, Poland), J.D. Miller and F.V. Hanson (Salt Lake City, UT, USA) 105

The chemical structure of secondary sulfur in Assam coal
M.K. Baruah (Assam, India) 115

Review
Properties of Gondwana coals with emphasis on the Permian coals of Australia and South Africa
J.R. Kershaw (Clayton, Vict., Australia) and G.H. Taylor (Canberra, ACT, Australia) 127

Vol. 31, No. 3

A study on unit structures of bituminous Akabira coal
M. Nomura, K. Matsubayashi, T. Ida and S. Murata (Osaka, Japan) 169

Ash agglomeration during fluidized bed gasification of high sulphur content lignites
V. Marinov, S.P. Marinov, L. Lazarov and M. Stefanova (Sofia, Bulgaria) 181

The rate limiting step in the sulfation of natural limestones during fluidized bed coal combustion
M.Z. Haji-Sulaiman and A.W. Scaroni (University Park, PA, USA) 193

Effect of process parameters on the coprocessing of coal and heavy oils
R. Rosal, L.F. Cabo, F.V. Díez and H. Sastre (Oviedo, Spain) 209

Electrolytic pretreatment of coal for enhanced liquefaction
S.B. Lalvani, P. Rajagopal, J.A. Koropchak, C. Chavez, B. Akash and C.B. Muchmore (Carbondale, IL, USA) 221

Short Communications

Exploration on the mechanism of coal desulfurization using microwave irradiation/acid washing method
S. Weng and J. Wang (Shanghai, P.R. China) 233

Characterization and stability analysis of wood-derived bio-oil
J.D. Adjaye, R.K. Sharma and N.N. Bakhshi (Saskatoon, Canada) 241
